The RD Series Portable Fuel Transfer Pumps are reinventing the way people fuel their vehicles. With the RD Series you get a flow rate of up to 8 or 12 gallons per minute, the flexibility of mounting it or holding it by hand, and quick connect DC power, you have the ability to fuel just about anything, anytime, anywhere.

It’s the perfect pump to carry in your truck. Be ready at a moment’s notice to fuel your tractor, backhoe, boat, generator, or virtually any other petroleum powered vehicle or equipment. The RD is also ideal for bunded tank applications, where it can be foot or bung mounted. Drain or fill fuel tanks safely in service centers with no spills, and no worries.

The RD series are the only portable fuel transfer pumps that carry CE, ATEX, UL, and INMETRO certifications for use with gasoline, benzene, petrol, diesel, biodiesel (to B20), kerosene, and other fuels.

THE MOST VERSATILE DC PUMP AVAILABLE

8 GPM or 12 GPM

THE ONLY PORTABLE DC PUMP UL LISTED FOR USE WITH GASOLINE AND OTHER FLAMMABLE LIQUIDS
Multiple mounting options
Bung mount, foot mount or handheld; versatile enough to fit your application.

Configurable flanges
Position the inlet and outlet hoses to fit your needs. Remove two bolts, rotate the flange and you’re done. Isn’t versatility fun?
