12 VDC PORTABLE

• For petrol, diesel, biodiesel (to B20), kerosene & E15
• ATEX certified
• Heavy duty cast iron construction
• Self-priming rotary vane

FR112CL
• This option includes litre counter

Includes steel suction tube, discharge hose, spout

FR1152 Piston Hand Pump
• 75 litres per 100 strokes
• ATEX certified for all fuels
• Perfect for tank or drum mounting
• 2 years warranty

Includes steel suction tube, discharge hose, spout

FR20V Piston Hand Pump
• 320 litre per stroke
• Compatible with engine oils, gear oils, anti-freeze, mild acids, degreasers
• Perfect for tank or drum mounting
• Fluorocarbon seals
• 1 year warranty
• Small valve for money

Includes polypropylene suction tube

12 VDC PUMPS

• For petrol, diesel, biodiesel (to B20), kerosene & E15
• ATEX certified
• Heavy duty cast iron construction
• Self-priming rotary vane

FR1205GE
• Flow to 57 LPM

Includes nozzle holder, bypass, inlet filter screen, power cable, and lockable on/off switch

FR1405GE
• Flow to 75 LPM

Includes nozzle holder, bypass, inlet filter screen, power cable, and lockable on/off switch

24 VDC PUMPS

• For petrol, diesel, biodiesel (to B20), kerosene & E15
• ATEX certified
• Heavy duty cast iron construction
• Self-priming rotary vane

FR2405GE
• Flow to 75 LPM

Includes nozzle holder, bypass, inlet filter screen, power cable, and lockable on/off switch

FR4405GE
• Flow to 175 LPM

Includes nozzle holder, bypass, inlet filter screen, power cable, and lockable on/off switch

115/230 VAC

• For petrol, diesel, biodiesel (to B20), kerosene & E15
• ATEX certified
• Heavy duty cast iron construction
• Self-priming rotary vane

FR3105VEMN
• Flow to 130 LPM

Includes nozzle holder, bypass, inlet filter screen, bung adapter, and lockable on/off switch

FR3115VLMN
• Flow to 120 LPM

Includes 4 wheel mechanical meter

HAND PUMPS

FR1112 Rotary Hand Pump
• 12 litres per 100 revolutions
• ATEX certified for all fuels
• Perfect for tank or drum mounting
• 2 years warranty

Includes steel suction tube, discharge hose, spout

FR1152 Piston Hand Pump
• 75 litres per 100 strokes
• ATEX certified for all fuels
• Perfect for tank or drum mounting
• 2 years warranty

Includes steel suction tube, discharge hose, spout

FLOW METERS

Tuthill’s TT meter range offers a range of performance, flows and calibrations to give a simple, cost-effective and reliable product.

• 8-132 LPM
• 1% accuracy
• Long life AA batteries
• Range of unit measures
• Choice of settings
• 2 years warranty
• Fully ATEX certified

TTGAB - 1” BSPP
• Aluminium construction
• Suitable for all fuels

TTGABC - 1” BSPP
• Nickel plated aluminium construction
• Suitable for all fuels

900CD Series
• 23-151 LPM
• Wide range of fuels and solvents
• Accuracy: 1.25%
• Repeatability: 0.25%
• Cumulative and constant flow indication
• Measures: litres, pints, quarts, ounces or gallons
• ATEX certified
• 2 years warranty

900CDDP Series
Includes all of the 900CD features plus:
• Intrinsically safe barrier & power output included
• Backlight display

115/230 VAC

• For petrol, diesel, biodiesel (to B20), kerosene & E15
• ATEX certified
• Heavy duty cast iron construction
• Self-priming rotary vane

FR3105VEMN
• Flow to 130 LPM

Includes nozzle holder, bypass, inlet filter screen, bung adapter, and lockable on/off switch

FR3115VLMN
• Flow to 120 LPM

Includes 4 wheel mechanical meter
In 1892, James B. Tuthill began manufacturing bricks in Chicago, Illinois. Over 125 years and five generations later, Tuthill Corporation is a global presence in vacuum pumps, blowers, plastics, and fuel and chemical transfer systems. We take great pride that our products are still made in the USA, making quality and durability top priorities. The Fill-Rite® and Sotera® brands stand for promises kept by doing exactly what we say for our customers, inspiring people to choose, live, and love our brand, and cultivating relationships that last for life. To learn more visit tuthill.com

Our manufacturing facility is ISO 9001:2008 and ATEX certified
